THREE INTERCOLLEGIATE RECORDS BROKEN WHEN RED AND WHITE MEN CAPTURE HONOURS IN THRILLING CINDER CONTEST

Exciting Race for Premier Position Ends as Last Events Are Won. McGill Men Create Two New Records While Toronto Athlete Excels Record Set by Former Blue and White Vaulter. Legg Clips Time off Half-Mile Record. Francis Adds Foot to New Pole Vault Height. Pierce Makes New Time for Hurdles. Queen's Men Showed Up as Strong Contenders for Honours. Relay Race to be Run Today.

Yesterday at Toronto in the very heart of their great rival's camp, the McGill Track Team showed that they are without peer in the realm of inter-collegiate sport, and though handicapped by being on foreign ground, the Red and White was carried nobly in the various events and emerged triumphant from a keenly contested meet to show intercollegiate circles that McGill is—THERE.

Too great credit cannot be given to the men who so valiantly upheld the honour of their Alma Mater and came through with colours flying, from a gruelling contest. These men have trained diligently ever since college has opened, they have denied themselves pleasures and have given their all in order that the name of "Old McGill" may still resound throughout the college world.

Since 1913 McGill has shown that her Track and Field representatives lead the way for her sister Universities to follow—all credit to the teams that have made this possible and all honour to those men who are now returning victorious, proud in the knowledge that they have aided their University to climb one step higher in the realm of clean and manly sport. Team spirit, grit and "that last bit of push" won for McGill yesterday; it has won for them before; and in future years, looking back on records made, people will say, "These are things to be proud of."

The meet was fought bitterly with McGill emerging victorious with a total of 59 points; her nearest competitor was Varsity who amassed 49 points, and next in order came Queen's with 30 points.

Three existing records were shattered, one by Francis of Varsity, one by Sid Pierce of McGill and one by Legg of McGill. Francis is the greatest pole vaulter ever seen in intercollegiate circles and his new Canadian record of 12 feet 7 inches will probably stand for many a long day. He is an athlete of repute, being recognized as a prominent hurdler as well as a

pole-vaulter. He is a newcomer at Varsity, having graduated from the Hamilton Collegiate Institute, which has made a name for itself all over Canada and the States.

Sid Pierce needs no introduction to local followers of the track; he always manages to come through and yesterday smashed the 120 yards hurdle record doing it in 16 1-5 seconds which is 1-5 of a second faster than the former time.

Legg lowered the half mile run by 4-5 of a second when he did the distance in 1:59 2-5, and this broke a record which has stood since 1911 when Brock of Toronto travelled the 880 yards run in 2 min. and 1-5 second. It may also be mentioned here that Francis beat the former pole vault record held by J. S. Bricker of Toronto by a full foot which is a feat of outstanding merit as the former record has stood since 1913.

In the 440 yard dash, Legg, according to reports received from Toronto, was unfortunately disqualified for crossing another runner's path.

In conclusion we might say that although McGill was successful in defeating the representatives of other colleges, it was only by the greatest efforts that were able to do so and both Varsity and Queen's fought valiantly to wrest the title from the holders and gave their best in the attempt. They are all clean sportsmen and all credit is due them for their determined stand.

The results follow:—

DISCUS.

1—Walli, Queens.
2—Kennedy, McGill.
3—Friedman, McGill.
Distance—111 feet 6 inches.

100 YARDS.

1—Vince, Varsity.
2—Morrison, Varsity.
3—Patterson, McGill.
Time—10 1-5 seconds.

HALF MILE.

1—Legg, McGill.
2—Hurd, McGill.
3—Miller, Varsity.
New Record—1 min. 59 2-5 sec.

BROAD JUMP.

1—Kennedy, McGill.
2—Patterson, McGill.
3—Muir, Varsity.
Distance—21 ft. 5 1-2 in.

ONE MILE.

1—Rubin, McGill.
2—Sanderson, Varsity.
3—Thompson, Varsity.
Time—4 min. 43 sec.

16 LB HAMMER.

1—Amaron, McGill.
2—Friedman, McGill.
3—McLeod, Varsity.
Distance—93 ft.

POLE VAULT.

1—Francis, Varsity.
2—Gahoury, McGill.
3—Crosby, Varsity.
New Canadian Record—12' 7".

SHOT PUT.

1—McLeod, Varsity.
2—Jardine, McGill.
3—Kennedy, McGill.
Time—36' 10 3-4".

220 YARDS.

1—Vince, Varsity.
2—Wallace, Varsity.
3—Michael, McGill.
Time—23 1-5 sec.

120 YARDS HURDLES.

1—Pierce, McGill.
2—Consiglio, McGill.
3—Francis, Varsity.
New Record—16 1-5 sec.

THREE MILE.

1—Goforth, Varsity.
2—Wiggins, McGill.
3—Shaver, Varsity.
Time—15 min. 54 1-5 sec.

440 YARDS.

1—Morrison, Varsity.
2—Naden, Varsity.
3—Walker, McGill.
Time—54 1-5 sec.

HIGH JUMP.

1—Kennedy, McGill.
2—Hunter, McGill.
3—Crosby, Varsity.

The relay race will be run off today; but whoever wins the standing of the three teams will remain the same.

INITIAL MEETING OF CHEM. SOCIETY

"Secretion of Acid by Kidneys," Subject Treated

Yesterday at 5 P. M. in the large lecture hall of the Chemistry Building the Chemical Society held its initial meeting of the year.

Dr. R. F. Rutan presided and proceeded with the election of officers for the coming year.

Mr. Herbert was elected president and Dr. Whitby vice-president. The position of secretary fell to Mr. M. Jaros and that of treasurer which is a newly created office, to Mr. Holden. Three councillors were appointed in the persons of Professor Evans, Dr. Shaw and Dr. Whitby.

After this came nominations for prospective members and the following names were brought forward—Miss Douglas, Miss Patton, Mr. J. M. Allan, Mr. G. Bishop, Mr. H. B. Chipman, Mr. K. Hunter, Mr. J. H. Menzies, Mr. C. Swertz, Mr. Mc I. Smith, Mr. B. Snyder, Mr. E. W. R. Steacy, Mr. F. H. Yoston, Mr. Priestman, Mr. Home, Mr. G. Adney, Mr. Patterson and Professor Bleier.

When all business was concluded a paper was read by Dr. MacCallum on "Secretion of Acid by the Kidneys," a subject in which the lecturer has made a thorough investigation and much research.

With the more obscure points illustrated by lantern slides, Dr. MacCallum treated his subject with great clearness and showed how acid was formed in the kidneys by the interaction of salts such as sodium chloride and sodium acid phosphate or possibly by the decomposition of the latter. The function of these is to maintain their acquired acid base relation of the blood. An abnormal state arises if the hydrogen concentration of the blood rises above a certain value or reaches a lower value.

After the conclusion of the lecture,

Nov. 12—Thanksgiving Supper at Strathcona Hall.

PSYCHOLOGICAL TESTS

Under the direction of the University of Princeton, a psychological test is to be held for all members of a certain class. There are two purposes for the test. One is in order to aid the student to choose which department he shall enter in his upperclass years with more discrimination. Then it will also aid the Faculty in allowing the student to take his year. Records of each student are sent to his adviser who makes a secondary report to the faculty.

NOTED PHYSICIST WILL VISIT CITY

Mr. John Mills of New York, to Speak Here

Next week Mr. John Mills, Personnel Director of the Engineering Department of the Western Electric Company of New York will visit Montreal. On Thursday night, he will deliver an address to the Montreal Branch of the Engineering Institute of Canada on the subject of "Recruiting and Training Methods in a large Electrical Industry."

Mr. Mills is a well-known physicist who has done original work in connection with telephone and radio transmission.

On Friday, at 5 P.M. the same speaker will lecture to the McGill Physical Society in the Macdonald Physics Building, on the subject "Where the Physicist Stops and the Engineer Begins in the Communication Industry." This lecture deals with the relations between engineers and physicists in industrial research and will be illustrated by lantern slides.

Between 12 and 1 on the morning of Friday, Mr. Mills has kindly consented to give a lecture on "Power and Frequency Relations in Electrical Communications." This will be given to professors and students in the Engineering Building, under the auspices of the Department of Electrical Engineering.

At 4 P.M. on Friday, in Lecture Room No. 2 in the Physics Building, there will be a conference of an informal character to which professors of Engineering, Mathematics, Physics and Chemistry are invited. The subject under consideration is the training of young engineers.

It is extremely difficult to send personal notification to all those interested of a series of meetings of this character, but it is hoped that this will be sufficient notification without any further steps being taken.

A New Style Cigarette Case

THE most convenient and practical cigarette case ever devised is this patented Mappin & Webb design.

It takes a package of 20 cigarettes intact, including cardboard and tinfoil. This retains the cigarettes in perfect condition.

A convenient cut-out, at the side, permits of sliding the package out quickly, and a touch restores it to position.

In silver plate, \$5.50; sterling silver, \$7.50. Also carried in sterling silver, engine-turned.

Store hours: 8.30 a.m. to 5.30 p.m.

MONTREAL, SATURDAY, OCTOBER 20, 1923.

THE FIRST CHAMPIONSHIP

The first championship of the intercollegiate season has come to McGill. Fighting an uphill battle the Red and White track men captured the title in the last few events, but seldom has such a great underdog contest been witnessed between Canada's big three. The meet was won only by a comparatively small margin—ten points—and the keen rivalry between the athletes caused three records to be broken before the day was completed. It is a great thing to break records and three McGill men, 'Rolly' Legg and 'Sid' Pierce entered the athletic hall of fame by the very front door when they bettered times made by outstanding runners of the years gone by. They have brought great honour upon themselves and upon their Alma Mater and we congratulate them on their brilliant achievements in the Queen City. But a third record was shattered also, when J. Francis, carrying the colours of the University of Toronto, gave the greatest exhibition of pole vaulting ever witnessed in Canadian intercollegiate circles. The Daily wishes to extend hearty congratulations to Francis, and Varsity is extremely fortunate in having such a brilliant track man on its team. The Blue and White, as well as the Tricolour, put up splendid opposition, but the glory of winning a hard fight is much greater than that obtained in easy victory. Yesterday's was the sixth consecutive win for the Red and White, and we sincerely thank our representatives, first for upholding the glory of old McGill and secondly for retaining a major title in the face of a concentrated and heavy onslaught.

CONDENSED COMMENT

Two McGill men will face each other in the finals of the intercollegiate tennis singles, and McGill's strongest pair will be matched against Toronto's best in the last match in the doubles. The Red and White tennis stars have turned in fine performances and with the conclusion of to-day's play it is practically assured that the second title of the season will have come to our Alma Mater.

The Sophomore investigation regarding the rumours about an almost fatal initiation incident have been entirely successful and the second-year men have cleared themselves completely. It was unfortunate that the story, which was entirely untrue, ever got into circulation but it is a decidedly good thing that the misunderstanding has been cleared away and the atmosphere clarified. The student, who in all good faith, brought the matter to the attention of the undergraduates has also done the right thing in writing a second letter, honestly retracting the statements which he formerly made. The matter is now closed and the unpleasant ghost completely dead and buried.

The McGill British Rugby men meet the Montreal Club in championship play at the Molson Stadium this afternoon. Although British Rugby does not rank equally with Senior Football, it is hoped that the undergraduates will support to-day's event, for if minor athletics are given a sound backing they will be placed on a much firmer basis than they are at present.

College Sportiers Not so Old

"Football" will have to be dropped as a sport unless more men come out. Sounds like a bug-house fable, but it was actually a headline in the *Berkelayan* in 1876. Sports were another story in those days. There were twenty men to a side on the football team. The field was 400 feet long and the players were forbidden to throw or carry the ball. It was a game of batting and kicking the ball across the goal, and heaven help the man on the bottom, though spikes were sternly prohibited. It enjoyed very different popularity. Baseball was the main sport and furnished the school heroes as football does for us today. Fast and furious were the inter-class and inter-collegiate games, and the team was called the "Dolly Vardens." Women did not attend games, it being considered out of their sphere. In fact the only sport, so called, in which they took any part at all was chess! In this way they were formally urged to participate. Boating was for a long time considered out of the question, even after other colleges had taken it up. Harvard was the first to schedule it among athletics, although the first boy to buy a boat at that university was brought up before the faculty for his offense. When he pleaded that he didn't know any rule that forbade it, they told him that "no student was permitted to keep a domestic animal." They insisted his boat came under this rule. In 1876 Harvard had a match with Oxford, however, and boating was taken up by this university as a major sport.

—Daily Californian

NOTICES

Nominations for the Union House Committee from the Junior years of all the Faculties are requested by the Students' Council.

Representatives elected as follows:
 Medicine—2
 Science—2

Arts—1
 Commerce—1
 Law—1
 Dentistry—1

Nominations must be signed by 10 undergraduate students of the respective faculties and be in the hands of the secretary of the Students' Council by 6.00 o'clock, Monday Oct. 22, 1923.

Elections on Friday, Oct. 27th 1923.

TICKETS FOR BRITISH RUGBY GAME.

Reserved seats for to-day's game are on sale at Molson's Hall at 55 cents each. Entrance for reserved seats Pine Avenue.

Rooters tickets are on sale at the Union from 12 to 1 at 25 cents each. Entrance University St.

Rush seats at University St. Entrance from 1-30 to 215, at 25 cents.

ARTS '25.

Will all Arts '25 men please pay the class levy of \$1.00 to T. Newton as soon as possible.

ARTS '25

Important meeting of Arts '25 in Room 105 at 12.00 a.m. to-day. Annual representatives to be elected and other important business.

NOTICE, FENCERS.

The following have not yet ordered foils:

I. Mirsky, H. E. Feighton, P. W. Lane, R. Minnes, I. J. Wolfe, L. Schwartz, P. Statner, D. Mathewson, J. D. Converse, E. B. Loomis, L. S. Cossett.

Will the above please notify H. L. Silverstone regarding the purchase of foils. It is believed that the foils will cost about \$1.50 or \$1.75 each.

Member of the Fencing Club are requested to pay their fees on account of the increase in the membership of the club, making the supply of outfits insufficient. New outfits must be purchased and the money for these is obtained through the membership fee.

INTER FACULTY RUGBY.

Notices have been published stating that Dr. Harvey would be at Molson Hall from 12 noon to 1.30 to examine students for interfaculty games. These notices have been published without authority from the Department of Physical Education and unless a special arrangement is made with Dr. Harvey these examinations cannot be carried on at the noon period.

MACCABEE CIRCLE

The first meeting of the Maccabean Circle for the season 1923-24 will be held this Sunday afternoon October 21st, at the McGill Union, Sherbrooke St. The programme will consist of a discussion on the "School question" by Mr. Louis Fitch and Rabbi Merritt. All students in the University are invited to attend.

CORRECTION.

Radio Association—It was reported in yesterday's Daily that the new executive of the Club was:—Hon. Pres. Dr. A. S. Eve D.Sc., F. R. S., Vice-Pres. J. L. Miller Sec. R. Weir, Tres. J. M. Young.

This should read:—Hon. Pres. Dr. A. S. Eve D.Sc., F. R. S. C. Pres. J. L. Miller, Vice-Pres. D. Campbell, Sec. R. Weir, Tres. J. M. Young.

TODAY'S RUGBY PLAYERS.

Passes and two complimentary tickets are to be obtained at Molson Hall for each player in to-day's game.

MEDICAL SOCIETY

Sir Henry Gray, surgeon in chief of the Royal Victoria Hospital will give an address on Natural Surgery; at the Medical Undergrad. Society meeting on Monday, Oct. 23rd at 8.00 p. m. in new, Med. Building.

MANDOLIN CLUB.

The initial practice of the club will be held this coming Tuesday 7.30 p.m. at Peate's Music Studio, 584 St. Catherine St. West. Everyone interested in the club especially newcomers are more than welcome.

MED '29 MEETING.

There will be a class meeting of Med '29 on Monday, Oct. 22nd, at 4 p.m. in the Physics Bldg. Something of great importance will be discussed, so everyone make it their business to be there. The meeting will be short so you need not worry on that point.

FRENCH LECTURE.

A lecture on "Fine Arts in the province of Quebec" will be given at 8.15 p.m., Monday next, in the hall of the Ritz-Carlton Hotel. The speaker is Mr. Louis Thomas, French Journalist and writer.

This lecture is being held under the auspices of the Alliance Française on the occasion of their Fourth Bannion. Tickets may be procured free on application to Dr. Paul Villard, Secy.

TENNIS RESULTS IN M.S.P.E. TOURNAMENT

Singles Have Already Been Completed

Another week should see the completion of the M. S. P. E. Tennis Tournaments which are arousing much interest and competition. Every student in the school has taken part in them.

Already the Singles Championships have been decided, with Miss Roberts Miss Gordon and Miss McMillan leading divisions A, B, and C respectively. The game in which Miss Roberts triumphed over Miss Kenall, runner-up, was probably the most outstanding of the tournaments. Both players are very steady and accurate with strong, clean strokes and it was only after a hard fight that Miss Roberts was returned victor.

In C. Division, the contestants were exceedingly enthusiastic, taking every opportunity of getting on to the courts. Their play showed vast improvement as the Tournament progressed.

The finals in the Division A consolation Tournament for all those disqualified in the first round, have been reached with Misses Godfrey and Galtrey still in the running. These two girls will play off for the Championship next Monday on which day the finalists in the Division B. Consolations, Miss Gilmour and Miss Parke, will also meet.

The semi-finals in the Doubles have not yet been played but if the present fine weather continues the Doubles also should be completed next week.

SCIENCE VS. MACDONALD.

The following men will meet at the Bonaventure Station at 1.10 p.m. in good time for the 1.30 train for Ste. Annes.

Cottee
 Birkett
 Dingman
 Moore A.
 Fry
 Yulle
 Butler
 Mace
 Moore M. H.
 Moore G. W.
 McCall
 Pollock
 Dixon
 Hamilton
 Goldie
 Buchanan
 Merritt
 Leslie
 Scofield
 Hamilton

Note:—There is one complete outfit ready for someone if they have not already got theirs ready.

R. V. C. '26

There will be a meeting of R. V. C. '26 on Monday, October twenty-second at one o'clock in Room 2 of the R. V. C.

SCIENCE '25.

Meeting called for Science '25 at 12.55 Monday in room 33 Engineering Building. Reason for meeting election of officers for Junior annual dance.

SOCCER.

Will all the men who have been turning out regularly to practice be on hand for the game against the Theologs. This afternoon at 2.30. Everybody will have a chance to play. All out, and try for a place on the team.

The Secy-Treasurer also wishes it to be known that the fee of \$1.00 is payable all next week.

MARITIMERS MEET

A meeting of the Maritime Club will be held in Strathcona Hall on Monday Oct 22nd at 5 o'clock. For the purpose of electing officers for the coming year.

Nominations for the Union House Committee from the Junior years of all the Faculties are requested by the Students' Council.

Representatives elected as follows:
 Medicine—2
 Law—1
 Science—2
 Arts—1
 Commerce—1
 Dentistry—1

Nominations must be signed by 10 undergraduate students of the respective faculties and be in the hands of the Secretary of the Students' Council by 6 o'clock, Monday Oct. 22, 1923.

Elections on Friday, Oct. 27, 1923.

R. V. C. '26.

There will be a meeting of R. V. C. '26 on Monday, October 22, at one o'clock, in Room 2, R.V.C.

R. V. C. SPORTS' DAY.

All students taking part in the sports must have been medically examined this term. Those who have not yet been examined should sign the form posted on the R. V. C. Athletic Notice Board, stating time most suitable. Examinations will be held on Monday and Wednesday.

R. V. C. SPORTS' DAY.

There will be a practice for Sports Day, from 12-1 o'clock to-day behind R.V.C. Everyone should report to the Manager of her event when she has practised it. Watch for Athletic Notice Board for further notices regarding practice etc.

ELECTRICALS HELD ELECTION MEETING

Executive to Draw up Season Schedule

Yesterday afternoon saw what appears as the commencement of a splendid year of activities for McGill Electrical Club. At five o'clock about thirty men of the third and fourth years gathered in room 53 on the Science Building, a room sacred in the memory of every man in these two hectic years, either those of the past or the present. Following the time honoured custom of the club the meeting was opened by Mr. Wallace who after a few remarks proceeded with the matter of most import.

From the third year were elected the secretary, Prudham and the Treasurer, Harper. After this followed the election from the fourth year the executive council of six men. The councillors for the year are Richardson, Wood, Leslie, McCracken, Malone and Horden and these six immediately elected from among themselves by a decisive vote, Wood, as president of the club.

The honorary presidency was voted to Professor Christie and the Honorary Vice-President is Mr. Wallace. The executive is to meet again in a day or two and draw up a tentative plan for the year which will be brought before the members. A wide range of activities is looked for and get any amount of good from the Club during the year.

LOST & FOUND

LOST

Pay envelope belonging to messenger boy. Lost sometime yesterday around Engineering Building. Finder please return to Harry, janitor of Engineering Building.

LOST

Silver-plated Eversharp Octagonal barrel and McGill crest on the top. Finder kindly return to M. L. Poyas, Med. '25. Plateau 1651.

LOST

Key ring of five keys and a disc number 5. Finder please return to janitor of the Chemistry Building.

FOUND

Two fountain pens, one with name H. Krasner engraved. Two Eversharp pencils, one pocket knife, one silver watch belonging to Commerce freshman. Apply to janitor of Arts Bldg.

Little Susie: "Papa, what makes a man always give a woman a diamond engagement ring?"

Her Father: "The woman."—Ex. Johnny: "Mama, what do they mean by the blind leading the blind?"

Mama: "A man trying to explain the political situation to his wife."

INDIANA'S EXTENSION COURSES

Approximately 1,127 students are enrolled in the Indiana University extension school at Indianapolis. W. S. Bitner, associate director of the Extension Division, announced yesterday. Forty-four students, an exceptionally large number, are taking graduate work. Nineteen are enrolled in classes of education, 16 in English and 7 in other subjects. English composition, accounting, business law, and advertising comprise the courses offered.

AND THERE WAS LIGHT

They sat in the dark—the switch was dead. But the E. E. student used his head and fixed it with a penny. Then proudly asked this youth so dense: "Doesn't that prove that I have sense?" She answered "One too many."

McGILL TENNIS TEAM HAS ESTABLISHED GOOD LEAD

Morrice and Wright Will Play in Singles Final To-day, and meet Ham and Gray of Toronto in Doubles Final. Intercollegiate Tennis Marked by Exceptional Form of Contenders.

The McGill Tennis Team yesterday fought its way through the semi-finals at Toronto and to-day will battle for the championship. All though the different games, tennis of a high calibre was played ranking with that of the Dominion and Provincial championships. Spectacular play was prominent at all times, and closely fought matches were the result. In the Singles semi-finals, Jack Wright just nosed out Leslie in three closely-fought sets, 5-6, 4-6, 6-4. In Leslie, McGill has a rising champion as he has clearly demonstrated by putting Wright to such a hard test and by his recent showing in the elimination matches on the Campus courts here. Morrice and Wright both played brilliant tennis, overcoming their opponents by heady play and brilliant recoveries. To-day these two will fight it out for the Singles Intercollegiate Championship, Morrice having beaten Scott in straight sets closely contested 6-1, 9-7. In the first set Scott could not seem to strike his stride but in the second, he came back strongly and Morrice just managed to squeeze out a 9-7 game which gave him the privilege of playing in the finals. In the doubles, Wright and Morrice playing beautiful tennis, had no diffi-

culty in trimming Rainville and Beauchemin of University of Montreal, to the tune of 6-1, 6-2. The Toronto pair, Ham and Gray, were successful in taking a hard battle from the two Browns of McGill, 6-0, 4-6, 6-2. They also defeated Gravel and Roy of University of Montreal, while Morrice and Wright were fighting it out with Scott and Endicott. The doubles finals will be held to-day and although Ham and Gray are a fighting pair, Morrice and Wright are a great team and should be able to win the championship for McGill. The results by sets follow: Singles, Semi-finals. Jack Wright beat Leslie, 5-6, 4-6, 6-4. Morrice beat Scott, 5-6, 9-7. Wright and Morrice play off in the finals. Doubles, Semi-finals. Wright and Morrice beat Rainville and Beauchemin, 6-1, 6-2. Scott and Endicott beat Cross and MacLachlan, 6-4, 2-6, 6-4. Ham and Gray won from the two Browns, 6-0, 4-6, 6-2. Ham and Gray beat Gravel and Roy, 6-4, 5-6, 6-2. Wright and Morrice beat Scott and Endicott, 6-1, 6-2. Ham and Gray play Morrice and Wright for Doubles championship.

R.M.C. TEAM AND McGill AT KINGSTON

Intermediates Left Last Night to Meet the Cadets STRONG TEAM R. M. C. Defeated Queen's Seconds on Saturday

The Intermediate squad left last night to meet the Royal Military College team in Kingston. The R. M. C. definitely crushed the hopes of Queen's in the intermediate series a week ago when they defeated them 19 to 11. The McGill team is in good condition and have several new players to try out. Although the cadets compose a strong team the local squad are considered to be a well rounded-out machine and in their daily practices with the Seniors they have shown a great deal of fighting spirit backed by no small ability. The Cadets should experience considerable difficulty in blocking the end runs and the line plunges of the visitors. Bazin at quarter is a very capable director and with such men as Cameron, Gill and Adams behind him should gain many yards by the Minnesota route. On the line such men as Newton, Gordon, Mitchell and Walsh should form a stone-wall defence while Chevrier and Smith at the end positions are expected to hold back the troops. The line-up of the two teams follows: McGill Left Half Gill Right Half Cameron Centre Half Adams Quarter Bazin Snap Fairbanks Flying Wing Sportsman Right Inside Newton Left Inside Ogilvy Right Middle Mitchell Left Middle Walsh Right Outside Chevrier Left Outside Smith Subs. Jones Tucker Cameron Hymen Harris

McGILL FIFTEEN TO MEET MONTREALERS

English Rugby Team Plays at Stadium

Now that the three weeks of strenuous competition are over the McGill team has finally rounded into fighting trim. They meet the Montreal English Rugby team in their first contest of the season, for the McTier cup at the Molson Stadium to-day at 2.30. The Montrealers at present hold the cup. Last Saturday, they successfully defended their trophy when they defeated their first challengers, the Ottawa English Rugby team in a closely-contested game of 8-6. The Red and White men are confident of victory. They have lost but few men through graduation and the line has been materially strengthened by a number of good players from other colleges. In practice games, Wilson, McLean and Walters, old stand-bys of last year, are showing superb form on the forward line, while Walters from South Africa is showing more speed than ever and is a charm at dribbling. Among the new men, Doug, McKinnon formerly of Leland Stamford University, and Mac Orlum, are showing up well while Hart from Dunwich College, England, is doing well at drop kicks and is a sure tackler. On the half-line Deaton and Wylst, formerly of Mount Allison are working a good combination. Captain Marpole continues to play his usual stellar game on the three-quarter line, being well supported by Jack McDonald and McLeod ably fills at full back. The line-up: Forwards—McLean, McKinnon, Mac Orlum, Brown, Walter, Hart, Wilson. Half-backs—Deaton, Wyse. Three-quarters—Marpole, MacDonald, Cooper, Holman, Blundell. Full-back—McLeod.

MEDICALS WIN INTERFACULTY RUGBY GAME

Arts Lose Out in Kicking Duels SCORE 14-0 Chisholm Nets Many Points

In a fast and hotly-contested game, the Med. faculty rugby team beat Arts by a score of 14-0. The playing of both teams though more especially of the Arts was very inconsistent at times. At one minute they would be playing together brilliantly, like a well-trained outfit, but at the next making the most foolish blunders, and misplays. The Arts' mistakes and fumbles were usually made in their own territory, and proved the more disastrous, several times leaving the Meds in beautiful position to score. After the first quarter, Arts never really threatened the Med line, though good defensive work by both teams kept play see-sawing about centre field for a considerable time. The tackling was very good for the most part, though on occasions sloppy tackles were made which resulted in human pyramids being piled up. It is safe to say however, that if Arts could have eliminated some of their most flagrant errors, a different story would have been told at times they completely outclassed the Meds, getting away for long gains, only to have their efforts nullified by a forward pass or smothered kick. For the Meds, Chisholm and Grassick were the two shining lights. All the 14 points came from Chisholm's boot as the result of 3 drops and 5 rouges besides which he returned several of the Arts' kicks, gaining considerably on the exchanges. For Arts, the backs all showed up to advantage at different times though especially on end runs where they got away for 20 and 30 yard gains with comparative ease. Bell at quarter and Myers at outside were also prominent, the latter ripping off some neat tackles. Both lines were good and showed that they could play football when they meant to, as for example when Arts held on their own 5 yard line. The Med team won because they were on the job and ready to take advantage of every break and they had the opportunities. Score by Quarters: 1st Quarter—no score 2nd " —Meds 5, Arts 0 3rd " —Meds 5, Arts 0 4th " —Meds 14, Arts 0 Full score Meds 14, Arts 0. MARKSMEN MEET AT STRATHCONA HALL

Last Practice for Inter-Collegiate Shoot

The McGill Rifle Association will hold the regular week end practice tomorrow at Pointe aux Trembles. As this is the last regular practice before the Intercollegiate Shoot, it is hoped that all members, as well as new men who wish to join the Association, will make an effort to be present at this practice. It is not necessary to have had range experience in order to shoot with the club, and several practices will be held after the Intercollegiate contest, for the Birkett Cup shoot. A fine opportunity is offered for those who wish to improve their ability as marksmen. This has been an ideal season for shooting and the beautiful Indian summer days, spent at Pointe aux Trembles, have been enjoyed by all members of the Club. The practices have been well attended and it is expected that there will still be an influx of new members. The party will meet tomorrow morning at Strathcona Hall, at 8.45 a.m. As cars going to Pointe aux Trembles only run every half hour, it is hoped that all those who turn out will be on time, as this will save delay at the range. Targets and markers will be ready when the party arrives, so that shooting can commence at once. The Intercollegiate Shoot will take place October 28th, weather permitting. First Student: "beat a teacher up the other day." Second student: "How's that?" First Student: "I passed him on a hill." Absent Minded "Why was Dr. Kitter so severely reprimanded by the club librarian?" "They caught him absent-mindedly removing the appendix from the book he was reading." ARTS '25 ELECTED REPRESENTATIVES

Members for "Annual" Board Nominated.

The election of Representatives to the "Annual" Board, and the Union House Committee, were among the several weighty matters discussed in a meeting of Arts '25, at noon yesterday. Bob, Fortune and Ted, Newton were elected to the "Annual Board," and after some discussion, Doug, Everett was nominated as Arts Representative on the Union House Committee. The question of Local Activities was discussed and it was decided to await more definite word from the Social Committee before making arrangements for class entertainments before Christmas. The class treasurer (then) called for payment of dues, and the meeting adjourned. There was once a student who didn't write home to his parents for money. He was an orphan. Dumb: What is Sam's last name? Belle: Sam who? —Oklahoma Daily

CUP GIVEN FOR STUDENT SHOOT

D. C. R. A. Enters Trophy for Rifle Competition

The Dominion of Canada Rifle Association offers a trophy for annual competition among teams of Canadian Universities, to be contested for under the following conditions:— (1) The trophy to be known as the "D. C. R. A. University Cup," and to be held for one year by the university furnishing the winning team. The Cup to be returned to the Treasurer, Dominion of Canada Rifle Association, Ottawa, not later than the 1st. October each year. (2) The team representing each University to consist of the eight highest scorers of all the members of the University Rifle Associations shooting together at the same time and ranges, provided such members are undergraduate students of the University represented, or graduates of the current year of competition. It is, therefore not necessary to name the members of a team beforehand. (3) Each Association entering will be allowed to shoot on a date selected by themselves, provided that the Secretary of the D. C. R. A. has been notified at least two weeks in advance. No subsequent change in date will be permitted unless the consent of the D. C. R. A. has been obtained. (4) The competition will be shot at 200, 500, 600 yards upon the local range used by each University Rifle Association, and at targets authorized by the Department of Militia and Defence, for Rifle Associations. (5) The number of rounds fired per man are to be one sighting shot, not convertible and seven scoring shots at each range. Ammunition to be provided locally. (6) The competition will be conducted under the D. C. R. A. regulations, but the members of each Association must shoot with the S. M. L. E. rifle supplied to that Association by the Government without the addition of accessory sights of fixtures to the rifle of any kind. (7) Any position with head to target may be assumed by the firer at any range. (8) Any umpire or range officer, to supervise and to test the accuracy of scores, etc., will be provided by the D. C. R. A. for each University, and notification of the same made prior to the match. (9) Score cards will be provided by the D. C. R. A. on application, upon which, after the completion of the shooting, the scores of the eight highest eligible competitors will be copied from the scoring registers, attested by the D. C. R. A. range officer (see section 5), and forwarded to the Secretary, Dominion of Canada Rifle Association, Ottawa.

ATHLETIC MEETS REVEAL STANDING

French Athletes Lose to England and Sweden

Successive defeats of French athletes by teams from England and Sweden in the course of dual meets held recently in Paris, have caused much concern among French Olympic officials as to the probable chances of success of the French representatives at the Olympic games next year. England nearly doubled the score of the French, while Sweden won by the comfortable margin of 102 points to 75. Such is the concern that the French Olympic committee is seriously considering the employment of professional trainers from other countries to prepare their Olympic athletes. James Duncan, holder of the world's discus-throwing record and W. H. "Sparrow" Robertson, one of the greatest American authorities on foot running, have been approached by the committee with a view of interesting them in the proposition. It is a question of dollars and cents with these two Americans, however, and although their demands are relatively modest, the franc is rather low just at present. Frantz-Reichel, general secretary of the committee, writing in "L'Avenir" says: "The English and the Swedes have defeated us. The best athletes won. Their excellent condition and the superiority of their technique and style are the causes of their legitimate success. We, in France, also have talent of great intrinsic quality, but our weakness lies in its development. We must get experienced professional trainers who, properly paid, would devote their entire time to the study and teaching of the methods which, adopted in America, England, Finland, and the Scandinavian countries, have made those nations supreme in the athletic field." In the recent Franco-Sweden meet the French did very well in the sprints, Andre Mourlon and Jean Verquin, both of France, finishing first and second in the 100 meters. Mourlon turned in 10 4-5 seconds. Carboney, the revelation of the games, a slim French youth of 19, carried off the 200 meters in 22 1-5 in front of Engdahl and Branting. The French also won the 400 meters relay, Andre Mourlon, Rene Mourlon, Hillmann and Lorrain, negotiating the distance in 42 2-5 seconds, breaking the French record of 42 4-5 which had stood since 1921. In the longer distances, 400, 500, 1,500, 5,000 and 10,000 meters, the Swedes were supreme. France also was outclassed in the field events and the shot, discus and javelin throw. Lewden won the only field event that went to France, the high jump, with a mark of 1.90 meters. More than 50,000 people journeyed to Pershing Stadium during the two days that the meet lasted. "They have crossed over." "And the Egyptians?" "Will he here directly. That's the sort of painting I like—simple and unpretentious." But that does not prove the man was crazy. He had been reading Elbert Hubbard's blank book entitled, "An Essay on Silence."

NO POULTRYMAN

Down in Texas the short cotton crop forced a large number of country negroes to the cities. One of them applied for a job at one of the large employment agencies. "There's a job at the Eagle Laundry," said the man behind the desk. "Want it?" The applicant shifted uneasily from one foot to the other. "Tell you how it is, boss," he said finally. "I sure does want a job mighty bad, but de fuck as I ain't never washed a cagle."

NOT TO-NIGHT, DEARIE.

An old man walked into a restaurant and sat down at one of the tables. The waiter came to take his order. "Noodle soup," said the old man. "Sorry," said the waiter, "we're all out of noodle soup. Won't you have something instead?" "No," said the old man, "I must have my noodle soup." "But we have no noodle soup," cried the waiter. "We have bean soup, mock-turtle soup, vegetable soup, pineapple soup, and cream of bologna soup." The old man rose, majestic in his wrath. "Young man, he cried in a voice of thunder, "listen to me. I have travelled East and West. I have travelled North and South. I have traversed the icy mountains of Greenland and the burning deserts of Africa. I have slept under the mighty palms of the Himalayas and the towering pyramids of Egypt. I have voyaged to distant lands that you know not of. I have set foot on soil that no other white man has ever trod upon. I have been to China, India, Arabia, South America, all over this great universe of ours and wherever I have gone I have got my noodle soup, and here, you have the audacity to tell me to my face that I cannot have my noodle soup. For the last time, do I get my noodle soup or not?" "Not to-night, dearie!" snickered the waiter. The old man took his hat and, without another word, walked out into the street. If, L.S.

UNION JAZZ TEA GREAT SUCCESS

Crocker Plays New McGill Marching Song

All those who were fortunate enough to be in the Union at tea-time this afternoon will applaud the House Committee's decision in continuing last year's most successful jazz teas, for this afternoon's affair was an unqualified success. The Union Cafeteria was crowded to capacity by the happy crowd that took advantage of such a cheery occasion. Adney's orchestra was irresistible and it was not long before everyone was joining in the choruses of such favorites as "On the Back Porch" and "Louisville Lu." Adney's orchestra has been a success at the Ritz Carlton and the Venetian Gardens all the summer. Further applause was evoked by the new McGill marching song, played by William Crocker, which ought to be a great hit.

INITIAL MEETING OF CHEM. SOCIETY

(Continued from Page 1.) thanked Dr. MacCallum for his interesting paper and remarked that the Dr. Rutan in a few well chosen words Society was always especially interested in a subject which was treated by someone who had made a special study of it and could make his audience understand the value of it. Dr. Rutan also praised Dr. MacCallum for his work during the past year as president of the Society, saying that although he had a great many outside interests, the affairs of the Society were never allowed to suffer and that he more than fulfilled his duties. The meeting was then adjourned until next week when another paper will be read.

STREET CAR AMENITIES.

London Bystander. The Man (having surrendered his seat): I beg pardon!" The Girl: "I didn't speak!" The Man: "Sorry, I'm sure. I thought you said 'Thank you!'"

CONVERSAT WAS VERY ENJOYABLE

Miss Hurlbatt and Mrs.
Adams Present

700 ATTENDED

Interesting and Varied Pro-
gramme Well Carried Out

The Conversat, held in Strathcona Hall last night under the auspices of the Students' Christian Association, was a huge success. The hall was crowded by about seven hundred students. Besides these, Mrs. Adams and Miss Hurlbatt were present as guests. Wendell McLeod was in charge of the program which was well carried out. About eight o'clock the hall was filled with eager men and shy demure ladies. Bright colors, remarks as to the weather, men and women were mixed in one great jam. Now and then from out of the confusion exclamations such as this could be heard: "Your program full, too?" There were ten full conversats, and some extras, and more besides could have been filled. Everybody was warm, but all seemed to enjoy themselves immensely.

Solomon in all his glory was not arrayed like some of the freshettes and many blades of grass are not as green as some of the freshmen. Still, they made themselves known to each other by means of that usual freshman line. And here and there also the more sophisticated of the higher years were to be seen.

Great enthusiasm was aroused when the track and tennis results were announced and this occasioned a hearty McGill yell. An interesting stunt was given by two erstwhile musicians, noisemakers it should be said—by name Joe Canker, an alto-horn soloist and Peter Rolfs-Rough, pianist. Their efforts, at first provoking applause were finally clapped down.

Then came the refreshments; this was the longest, the sweetest, conservat and the most enjoyed. There was plenty of cake and lots of ice-cream. All seemed satisfied. A wonderful evening in the opinion of most was closed or begun, perhaps, by the singing of Alma Mater.

Later on the sacred precincts of the "Daily" office were invaded by some hectic revellers fresh from Strathcona Hall, and among them were some prominent members of R.V.C. who evinced great interest in the "Daily" work. They beat a hasty retreat when it was announced that "Quips" were due to appear shortly.

INTERFACULTY RUGBY

Monday, Oct. 22, Law vs Science.
Saturday, Oct. 26, Law vs MacDonald.

Wednesday, Oct. 24, Commerce vs Arts.
Friday, Oct. 26, Medicine vs Law.
Saturday, Oct. 27, Arts vs MacDonald.

Monday, Oct. 28, Science vs Arts.
Wednesday, Oct. 31, Medicine vs MacDonald.

Wednesday, Oct. 31, Commerce vs Law.
Friday, November 2, Medicine vs Science.

Saturday Nov. 3, Commerce vs MacDonald.

Monday, Nov. 5, Arts vs Law.
Wednesday, Nov. 7, Commerce vs Medicine.

Saturday, Nov. 10, Science vs MacDonald.

All games to be played on the lower campus.

All games to commence at 4 p. m. sharp.

Managers: Science—Ogilvie and Leslie.

Arts—Webster.
Law—Hutchison.

Any information may be obtained from J. A. Marsh, Manager of Inter-faculty Football, at Plateau 1877 W.

Ears.

1. An ear is a feature as a part of the face.
And as a part of speech its a noun.
It helps you to look natural.
And keeps your hat from sliding down.

2. The cleaner you keep them the better they look.
And the better they properly work.
But it don't matter how good you can listen.

3. Wen 2 people talk chinese or Turk.
2 ears are enuff for anybody.
Without axually being too meny.
O the elephant has the biggest ears.
And the ant has the smallest of eny.

4. You can pic kup a rabbit by the ears.
Without causing much surprize.
But if you did that to a baby.
Its hole family woud brake out in cries.

5. Neger push pencils in peeples ears.
Or stick your mouth into them and shout.
O if we could any choose our own ears.
They d be less likel to stick out.

NOMINATIONS FOR UNION OFFICIALS

Men of Real Ability Are
Needed

The Students' Council has requested that nominations for the Union House Committee officers and faculty representatives on the Committee be in the hands of the Secretary of the Student Council by 6.00 o'clock Monday October 23, 1923.

Representatives are elected as follows:

Medicine 2
Science 2
Arts 1
Commerce 1
Law 1
Dentistry 1
The present officers of the executive are in charge until July 1, 1924. They are:
President—J. Packham.
Vice-president—"Bones" Little.
Secretary—R. G. Leach.

The faculty representatives, whose term of office expires October 30, 1923, are as follows:
Commerce Hampson
Medicine Hall
Science Nutting
Dentistry Jekyll
Law Martin
The Committee is at a great disadvantage, since neither Martin nor Nutting are at college this year. It is impossible to divide the committee into sections to attend to various sides of the work on this account.

The elections for the Union House Committee will be by ballot on Friday, October 26th. It is very important that all candidates be of the best, as the positions are of great importance and require able men. All candidates must be from the Junior year, except in the faculty of Medicine.

PROPOSE EUROPEAN TRIP FOR STUDENTS

Sponsored by Overseas Education League

A summer trip in 1924 to Great Britain and France, for University Undergraduates, has been proposed by the Overseas Education League, Canada Branch.

The itinerary will include stays of one week in Edinburgh and Oxford, and two weeks in London, where the British Empire Exhibition will be included. A visit to the Battlefields of the Great War and a week's stay in Paris, will complete the journey. Addresses on historical and sociological subjects will be given during the trip, and everything has been arranged to use the time to the best advantage.

Lord Byng is the Honorary President and Fred J. Ney M. C. of the National Council of Education, is the Hon. Organizer, of the League.

HOW TO STUDY (in brief)

1. Read wisely. Select data vital to the course. Use a loose-leaf notebook for "outside reading."

2. Arrange and organize material in order of sequence according to the method of the Professor. Don't use the text-book as a work of art, but as a tool; underline, side-line, bracket, circle out and erase.

3. Upon completion of the reading of a subject outline it, and get key-words to be used as indices to bodies of knowledge.

4. Read the complete assignment through at one sitting and mark the difficult sections. Then study, with pen and paper the difficult sections once, referring back to outlines and text to get a co-ordinated treatment of the topic.

5. (a) Study at the same period every day. (b) Seat yourself at the same table in a similar relative position.

6. Do not have the "bare" electric lights in your room.

7. Sounds should be uniform and regular.

8. Make regular breaks in the study period for regular periods of time.

9. For strictly memory work, distribute the learning over several short periods. Don't concentrate on it for one long period.

10. Give the mind a chance. Let it work according to its own laws. Then examinations will not be the bane of an otherwise pleasant life, but the questions will rather call out a well-organized, clear and sufficient supply of ideas.

The above is an analytic summary of an article on "Habits to Form in Study," by Professor Earl D. MacPhee, of the Department of Philosophy, University of Alberta, published in the issue of "The Gateway" of October 31.

The article is comprehensive, explicit in instruction, and clearly worded in non-technical language. It is regretted that its necessary length does not allow the Gazette to print it in full, as a careful reading and consideration of the methods advocated therein and principles underlying them, cannot fail to be helpful to any student.

Mr. MacPhee is a native of Prince Edward Island, a graduate of Edinburgh University, where he specialized in psychology, and was Professor of Psychology at Acadia for a year prior to being appointed to his present position.

OLD DAILY EDITOR WORKING IN WEST

G. H. Craik, Arts '23 on
Newspaper Staff

The many friends of Mr. G. H. Craik, Arts '23 will be pleased to learn of his appointment as Telegraph Editor on the Moosejaw Daily Times Staff. While at McGill Mr. Craik was on the "Daily" Staff and worked his way to Managing Editor on the Editorial board. In athletics he also took a prominent part, being a member of the track team last year. He held many other executive offices during his college career.

Going West, this summer, on the harvesters' excursion, he came into touch with his present position.

CLASS MEETING OF THE R.V.C. SENIORS

A meeting of R.V.C. '24 was held yesterday at one o'clock. The first business before the meeting was that of electing the class managers for the Athletic Association.

It was decided that 10 girls who are acting as Athletic Managers for the college should be the managers for the class also. The following, therefore will occupy the various positions:—

Tennis Manager—J. Matheson.
Sports Manager—M. Pennington.
Basketball Manager—E. Russell.
Hockey Manager—R. Grant.

It was also decided that the class fee be fifty cents, and if more money is needed at mid-term an additional fee of the same amount will be collected.

All members of the class are requested to pay fifty cents to Miss Brooks, the class treasurer.

OTHER CAMPUSES

Cal. loses frat houses in fire.

The University of California has suffered a great loss from the recent Berkeley fire. Reports state that class-rooms, fraternities, and other buildings were destroyed, but there is no question that U. C. will be greatly handicapped this semester.

The following is a list of the fraternities, sororities and clubs which were either totally or partially destroyed by the fire.

Alkamo Club, Dwight Men's Club, Abacadabra Club, Japanese Students Club, Aricom Club and the Del Rey Club.

Fraternities: Phi Kappa Sigma, Pi Alpha Epsilon, Tau Kappa Epsilon, Theta Chi, Kappa Nu and Alpha Tau Omega.

Sororities: Alpha Chi Omega, Delta Delta Delta, Zeta Tau Alpha, Norrena and Keweenaw House.

The flapper, whose doings and sayings have vied with the messages of the president of the United States for front-page positions on American newspapers, has come to stay, according to Mrs. T. H. Claypool, dean of women of Baylor University.

Answering a questionnaire made out by a student of the school of Journalism of the University, Mrs. Claypool said she believed the flapper is "a forerunner of bigger and better days for both men and women—concerns for her to be taken more seriously by the home and by the school."

Q. What do you think of women and girls smoking cigarettes?

A. "Women have the same right in this privilege as men. Neither has the moral right to modify their physical and mental efficiency."

Q. In your opinion, has the automobile had a tendency to lower morals, elevate morals, or have you noticed any change at all?

A. "I think the automobile has served to advise the carelessness of the home—the indiscretions of youth and in general make more public many weaknesses that heretofore were hidden from the public gaze."

Speeding at Arizona.

The problem of speeding has been added to the worries of student authorities at the Union of Arizona, and the necessity is becoming increasingly pressing for efficacious means of dealing with those who disregard pedestrian rights about the campus. Students apparently are not the sole offenders in this, for we are told that there are faculty members and very prominent ones who displays the flag, "Watch my Dust," just as frequently and just as dangerously as any brainless student.

"HELLO" DAL AT KANSAS

Tomorrow is Hello day at K. S. A. C. Everybody coming on the hill Saturday morning will greet everyone else with a smile and a hello. Loyal Angles will return the greeting.

The college mixers have done a great deal toward making the students acquainted, but these social affairs cannot reach everybody. The Y. M. C. A. through its establishment the Y. W., sponsors of Hello day, feel feeling of good fellowship will be promulgated. A day similar to Hello day is observed in many of the large universities, including the University of Chicago, University of Illinois, and the University of California.

REQUIREMENTS

High Standard Set by Previous Scholars

To-day is the final day of making application for a Rhodes Scholarship, those must be tendered D. G. H. Stairs, Secretary, Rhodes Scholarship Selection Committee. Scholars are chosen by a general committee from the whole province of Quebec, regardless of their university; they must be British subjects, over 19 and under 25 years of age, and must have reached the end of the Sophomore year.

In the past three years a scholar has been chosen from McGill: Jack Farthing, Arts '21, Lawrence Armstrong, Science '22, Dave Johnston, Arts '23. It is interesting to note that these men were prominent in athletics as well as scholastic attainments. In the will of Cecil Rhodes, the requirements are "force of character, devotion to study, courage, sympathy, and capacity for leadership." Another necessity is that the candidate should possess "physical vigour" that he should be a man who is fond of exerting himself physically as well as mentally.

Normally the scholarships amounted to £300 which covers three years at Oxford, but in 1921, an additional £50 was added. This is just enough to cover an extra year's expenses.

Dave Johnson, last year's scholar, was perhaps one of the best 440 yards man McGill has ever produced. He was on the relay team, and ran second in the 100 yards. There is no doubt as to his scholastic attainments.

Lawrence Armstrong, son of Professor Armstrong, was the successful candidate in 1922. He was a prominent member of B. W. & F., winning the Intercollegiate wrestling championship in his weight.

It is hoped that McGill will have as many applicants as formerly. Last year she entered nine out of a total of fifteen.

ON BOILS

Boils are common afflictions, whose importance varies according to their frequency, location, size and character. Boils are infections; they represent the effects of a struggle between microbes that have gotten in under the skin and the white cells of the blood, which have been summoned to fight them. Pus is the battlefield population representing both enemy and defender, and parts of the tissue destroyed.

The skin of every person carries a multitude of germs, the majority of which are incapable of penetrating the hard, "horny" layers that are termed the epidermis. Occasionally, however, through friction, as in the case of stiff collars rubbing the neck, or slight skin abrasions, or sometimes without evident path, the germs of the skin break through and get in under and into the connective tissue which joins the skin to the underlying tissues. There they start their mischief, and in time the boil results.

When the germs get in under the skin, the body immediately responds to the attack, and this response is characterized by pain, heat, reddening and swelling. These are symptoms of activity. In simple language, it means that a larger supply of blood is brought to the area, which produces the congestion, heat, swelling, and tension upon the surrounding tissues.

The body fights the invading organism in a number of ways, but chief among these is the phenomenon called "leucocytosis." This phenomenon was described by Metchnikoff, and his description reads like an old saga in which the stories of the brave warriors are told in fitting manner. (A drop of pus under the microscope shows the battle royal). The white cells of the blood literally eat up the microbes. Not infrequently, the white cells are destroyed by the ingested enemy. Often too, the white cells undergo a process of self-destruction, called autolysis, through which they liberate "enzymes," or digesting juices, which are capable of destroying the germs.

Practically all boils deserve serious attention—especially those located on the neck, face and scalp. While boils can be treated medically, most of them demand surgical treatment. The pain associated with boils is due primarily to tension, and this is relieved when the boil is incised, or opened. Incision also helps the formation and casting off of the core of the boil, for part of the defense of the body consists in the formation of a wall, limiting the action of the germs, and in ultimately casting off the entire lump.

When a boil develops, the application of hot compresses of some mild antiseptic solution, will hasten the "coming to a head" of the boil, and will soften the surrounding tissues. When a boil is incised and in subse-

SIGMA XI HOLDS FIRST MEETING

Prof. F. E. Lloyd on Research in Botany

The Sigma XI will hold its first meeting of the year on Wednesday October 20th in the Biology Building at 8.15 P.M. Professor Lloyd will address the Society on "Recent Researches on Plant Physiology at McGill." During the session 1922-1923 a series of lectures were given by the heads of the various departments on the research work now being conducted at McGill. Professor Lloyd's address is a continuation and will cover the work carried out in the Department of Botany. All those who are interested in the contributions that McGill is making to the advancement of science are cordially invited to attend.

The Society has planned an extensive program for the year. On November 16th Professor W. D. Hingcroft of Cornell will speak on "Blue Eyes and Blue Feathers." On December 5th, President Clivingston Ferrand of Cornell will address the Society on "Health."

CERCLE FRANCAIS TO MEET NEXT TUESDAY

The Cercle Francais has perfected its plans and arranged the programme for the season 1923-24, the probabilities are that great progress will be made in the coming term. The first meeting of the year is scheduled for Tuesday, in the reading room of the Union at 8 p.m.

The Society has a very laudable aim, that of increasing the knowledge of French language in McGill University. Students have always derived great benefit from the meetings, both as regards conversation in French and in hearing the very best French speeches. In accordance with this programme, some prominent men have promised to address the first morning.

A quartet has just finished singing "Among the Sleepy Hills of Ten-Ten-Tennessee."

The hostess noticed one of her guests weeping by himself. She inquired sympathetically:

"My dear man, are you a Tennesseean?"

"No, madam. I am a musician."

—Oklahoma Daily.

quent drainage, it is important to keep the area around the boil sterile. This can be achieved by painting the boil and the swelling around it with a diluted solution of tincture of iodine. When a boil breaks spontaneously, the same precaution should be exercised. Not infrequently the careless and unclean handling of a boil will cause others to develop in the surrounding regions.

An occasional boil may be of no significance, but frequent boils demand serious attention. Boils sometimes serve as notice of the existence of other, diseases, as for example, diabetes. In any case, it is best to "play safe" and to secure medical attention for each and every boil. Sometimes boils are effectively treated by vaccines, and this incidentally explains part of the truth of the old superstition that one must have a crop of boils before one recovers.

POWDER PUFFS AND THEIR OWNERS

Manager of dry cleaning establishments divulged the secrets of their gentlemen customers when they modestly, without condemnation, declared that dirty handkerchiefs and powder puffs were the principle findings in the suits entrusted to them for cleaning and pressing.

Admitting that there is nothing unusual about finding the handkerchiefs in mens' pockets, earnest zeal forces us to delve into the reasons for the presence of the powder puff in this mainly retreat. The decision may rest on two conclusions; either men have become vain paragons doing on a shineless nose and one of those velvety complexions which emulates soap advertisements, or the powder puffs have been dropped into their pockets by listless maidens while awaying to the rhythm of Bradley dance music. Much time and effort has been expended to find out which of these two possibilities is most often true.

Untiring probing of the vital question was met by an avalanche of enthusiastic testimony from the women. They declare that they always put their dainties into the pockets of the men with whom they are dancing.

The men protested to this. Powder puffs found in their pockets belonged to them they insisted. They were persistent but we choose to blame women until one witness among the men dug up a puff from the recesses of an inside pocket with a shout of victorious glee.

We are convinced. The truth was out. Men do not carry powder puffs for their own individual vanity and the storm of protest is to be showered on these equally weak modernists.

But the women have one comeback. They were the originators and pioneers of the powder puff movement, so they say.

No one has any accurate information on the invention of the powder puff but this much was learned from the archive of an Egyptian tablet at the foot of Djoricus's pyramidal tomb. Back in the days of the glory of Rome Cleopatra that ingenious wizard of snares with which to catch the unsuspecting man (for in those days no man knew whereof to devise a line), in those days Cleo plucked full twenty cat-tails of the softest fuzz from the banks of the Nile and whitened them with the dust of the Sahara desert. Then she dropped them in the powder made from full blown Queen's lilies. The perfume with which it was instilled was of exquisite subtlety; the soft texture it gave her countenance enamoured her already numerous admirers.

This prerogative, for such as it may be classified, has remained a special weapon of woman ever since the days of the famous Egyptian Queen. At times it has been usurped temporarily by the courtiers swarming around Queen Elizabeth, and in the court of Louis XVII, but this was not for long. Women gained their exclusive right and seemed fair to keep men out of their domain until they themselves began to encroach on manly privileges.

Suffrage came and woman got the vote. But they failed to realize that by adopting the rights formerly held only by men they would have to share some of their own original contrivances hitherto preserved to them alone. The powder puff is one of the most aggressive of these contrivances. It has passed into the hands of the enemy even as the ballot has included the women. Truly, "all is fair in love and war" and this is war on equal footing.

Daily Illini

CORRESPONDENCE

The Daily is not responsible for the sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE SIDE of the paper ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

The Editor,
McGill Daily,
Montreal.

Dear Sir,—Would you kindly publish this letter for Saturday's issue of the Daily?

With reference to my letter of the 13th inst. regarding a serious case of initiation, I am glad to say that the rumour which had gained such a widespread circulation and which I had every reason to believe authentic is untrue. This was found out by the President of Arts '23 personally calling at the home of the man in question and finding him ill from other causes than hazing.

I will admit, as I think I should do, that I was wrong in not trying to verify the report before sending it in for publication as I had confidence in my informant. May I take the opportunity of expressing my sincere regrets for having given more publicity to this report which has been proven false, also for any inconveniences that may have been caused to Arts '23.

Sincerely Yours
"Arts '23"

FIRST YEAR DENTS CHOOSE PRESIDENT

The first year dental students met to-day for organization purposes. After attending to other business the following officers were elected for the ensuing year:

Pres.—Carson
Vice Pres.—Walker
Sec'y.—Burton
Treas.—Thompson
Rep. to Dental Students Council—Voisard.
Rep. to Undergraduate Society—Berwick.

Pertinent

An inebriated gentleman was going home one evening, according to Harper's when he met a young man who was going to a new home. The young man was very frugal and had decided to move his own things rather than pay a mover.

On this trip he had a large hall clock on his back. It was heavy and he struggled until he heard the inebriated one call out:

"Shay, there you!"

Thinking the man was going to help him, he set down the clock and said:

He was astonished to hear the other stammer:

"Shay, you, why don't you buy a watch?"

Tom: "How are you getting along at home since wife is away?"

Jim: "Fine. I've reached the highest point of efficiency. I can put on my socks from either end."

Mink.

STUDENTS

ALREADY several of our advertisers have assured us that you have answered their advertisements. They spend money to tell you what they have for sale and they expect a fair return. If you are loyal to them they help to keep the Daily, your own paper in a sound financial position.

KEEP UP THE
GOOD WORK
